MILITARY PASSION

ARMY FACTS

ay, days out, trips
join the military
ondon you had us
LIVE to see and
Kings guard' you

Military Service has long been a constant in our life through play, days out, trips away, history and learning. There is a strong determination to join the military later in life at the moment unsure exactly which service. You were absolutely in your element when we took a trip to London you had us exhausted trailing round all the royal and military spots.

My favourite part was seeing your face when you were there **LIVE** to see and hear a Royal Guard shout at someone to 'back away from the Kings guard' you were so excited!!
